Why trials stopped

Grouped by keyword rules from each sponsor's registered reason; a trial can count in more than one group.

In the sponsors' words

Business or strategic **Enyo Pharma · MASH · Phase 2 · NCT06939816**
"Pilot cohort (n=10) yielded useful insights but data remains exploratory due to limited sample size. Study stopped due to strategic reprioritization."

Slow or low enrollment **Novartis · pINPOINt · Phase 3 · NCT04237116**
"Low enrollment"

Efficacy or futility **Bristol-Myers Squibb · BMS-986263 · Phase 2 · NCT042…**
"Trial terminated because of lack of efficacy in the short term acute phase."

Regulatory or ethics **Galectin Therapeutics · NAVIGATE · Phase 2/3 · NCT04…**
"Based on FDA feedback, Stage 1 of NAVIGATE was analyzed as a stand-alone trial. Study was not prematurely terminated for safety reasons."

Other **Galmed Research and Development · ARMOR · Phase 3 · NCT04104…**
"Interim analysis results from the open-label part of the study. The double blind portion of the study will be resumed once the study will continue."

Source: ClinicalTrials.gov, retrieved October 26, 2026: all 275 trials matching "MASH OR NASH · phase 2/3 · industry". Stop reasons come from a search for terminated, withdrawn and suspended trials with the same terms. Excluded 1 registration: NCT07481734 (Hudson Biotech). Counts are computed directly from registry records; reasons are quoted as registered. For research use; not medical advice.
